Tournament Rules

1. Tournament will consist of a team of one man and one woman combining their averages and dividing it by 2 to figure team averages. This average will determine handicap based on 90% of 220.
2. Averages will be determined by the following:
 1. 2009-2010 yearbook average
 2. (if no 09-10 yearbook average) 2008-2009 yearbook average
 3. (if no 08-09 yearbook average) current league sheet of 21 games or more
 4. If none of the above men will use 150 and woman will use 120. All averages will be verified.
3. If a couple cashes more then 3 times their average may be reevaluated by the tournament director.
4. The tournament will consist of 4 games with the women throwing the first ball and the men picking up the spare (if necessary) the 1st and 3rd games and the men bowling the first ball and the women picking up the spare, (if necessary) the 2nd and 4th games. The tournament total will be found by throwing out the lowest game and adding the other 3 games to handicap for a total.
5. POKER hands will be determined by the first ball of the first 5 frames of the second game (men) and the third game (women) to create the best POKER hand. (X=10, 8=8 ect.)
6. Mystery game will be drawn after second game and will be the score of the first game and the second game for anyone who pays to get into the Mystery game.
